

ABOUT US:

Hafa Adai!

The Guam Registration for Professional Engineers, Architects and Land Surveyors (PEALS) was established in August 1960 to over see the licensing of Engineers, Architects and Land Surveyors. The Guam PEALS Board carries out its mission through the regulation of these professions. The Guam PEALS Board ensure those entering the practice meet the minimum standards of competency in education, experience and examination. The Guam PEALS Board require licensing for any person or firms who practice or offer the practice of engineering, architecture, landscape architecture, land surveying and construction management. And the Guam PEALS Board establish standards of practice and enforce the laws, codes and regulations governing the professional services.

The Guam Board of Registration for Professional Engineers, Architects and Land Surveyors (PEALS)

Mechanical Engineer (ME)	74
Structural Engineer (SE)	61
	628

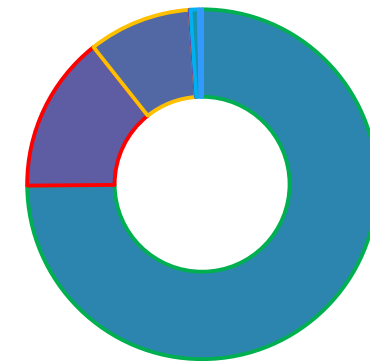

FINANCES

The Board's primary sources of revenue consist of fees collected from applications, registrations, and permit clearances. All revenue acquired by the Board is promptly remitted to the Treasurer of Guam, credited to the PEALS Board's fund account. In 2008, the Board initiated and has since maintained a Revolving Fund Account, in accordance with the authorization provided by Section 32109 (k) P.L. 30-55. This account functions as an escrow account, facilitating the direct deposit of garnished wages, permit fees, and vendor payments. This serves as a solution for instances when the requisition process through the Department of Administration extends beyond the permissible time frame.

FY2022	BUDGET	REVENUE	EXPENDITURES
	279,538	269,220	284,826

EXPENDITURES

- Salaries & Wages
- Contractual Services
- Rent
- Supplies
- Telephone
- Miscellaneous

CHALLENGES AND FUTURE OUTLOOK:

Our Challenges:

- Decrease in revenues generated during the COVID19 Pandemic and post Typhoon Mawar
- Decrease in registrations.
- Amending the PEALS Laws, Rules and Regulations
- Partnership and Collaborative Approaches in Investigations
- Promoting and recruiting Professional Land Surveyors

Your Feedback is Important to us!

Our Future Outlook:

- Continue the work on amending PEALS law and updating Rules and Regulations
- Increase Networking with professional groups of Engineers, Architects, Landscape Architects and Land Surveyors to promote licensure
- Encourage and promote the profession of Professional Land Surveyors Practice
- Increasing participation in NCEES and NCARB committees on the national level.
- Promote Public Awareness/Outreach Programs
- Continuing Education for Registrants
- Propose increase in Fee Schedule
